

Subject: Enthusiastic Application for IT Internship

Dear Hiring Manager,

I am excited to apply for the IT internship position, bringing a Bachelor's degree in Software Engineering and currently pursuing a Master's in Computer and System Engineering from Technical University Ilmenau. With experience in frontend development, UI/UX design, and proficiency in C++, I am eager to contribute to your team's projects. My coursework in C++ Fundamentals, Web Engineering, Advanced Computer Graphics, and Human-Computer Interaction align perfectly with the responsibilities outlined for this role. I am eager to learn, collaborate, and contribute to the development of rendering technologies, performance optimization, and code documentation. Thank you for considering my application. I am keen to discuss how I can add value to your team further.

Best regards,

Sitara Khurram
