2. Call Recording App

Introducing the ultimate call recording app - the perfect solution for anyone who wants to record important phone conversations. With this app, you can easily and conveniently record any incoming or outgoing phone call and access it later for review. Another important feature of the call recording app is the ability to trim and merge recordings.

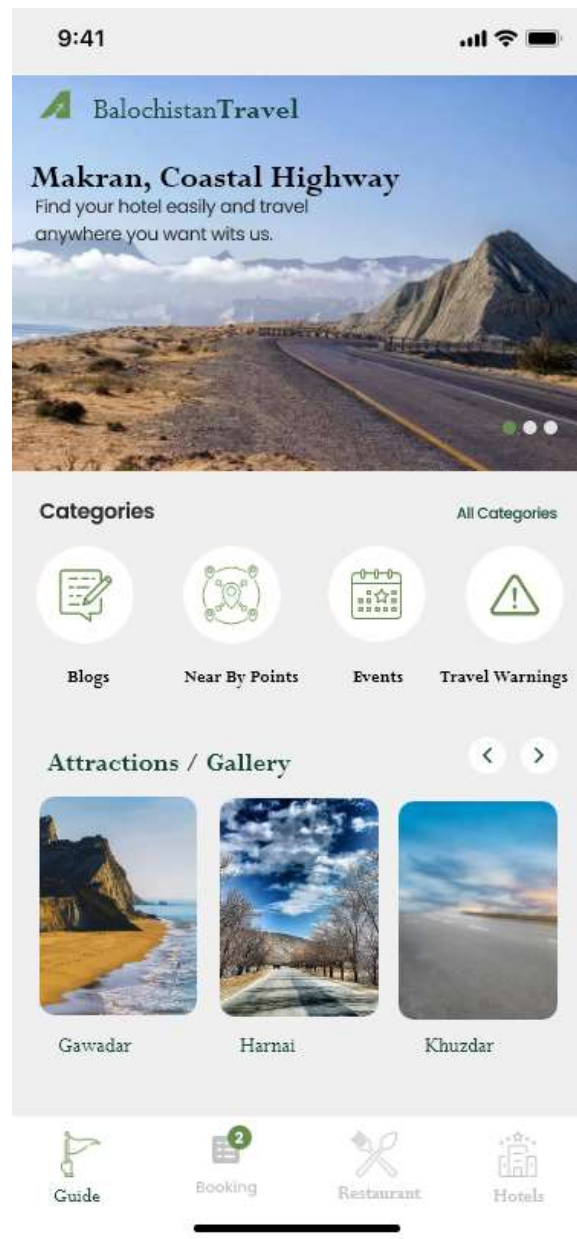

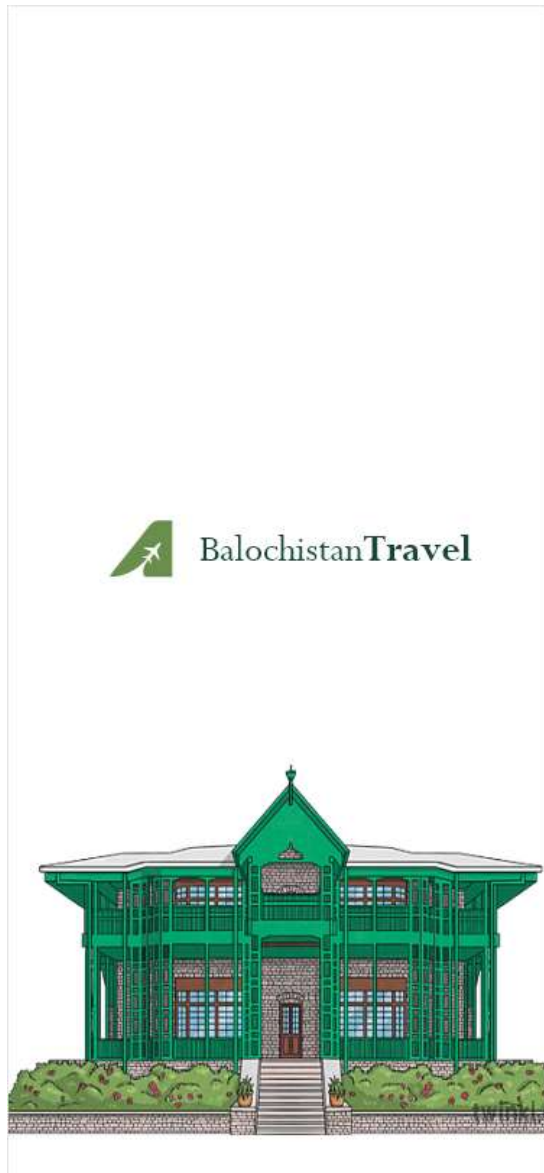

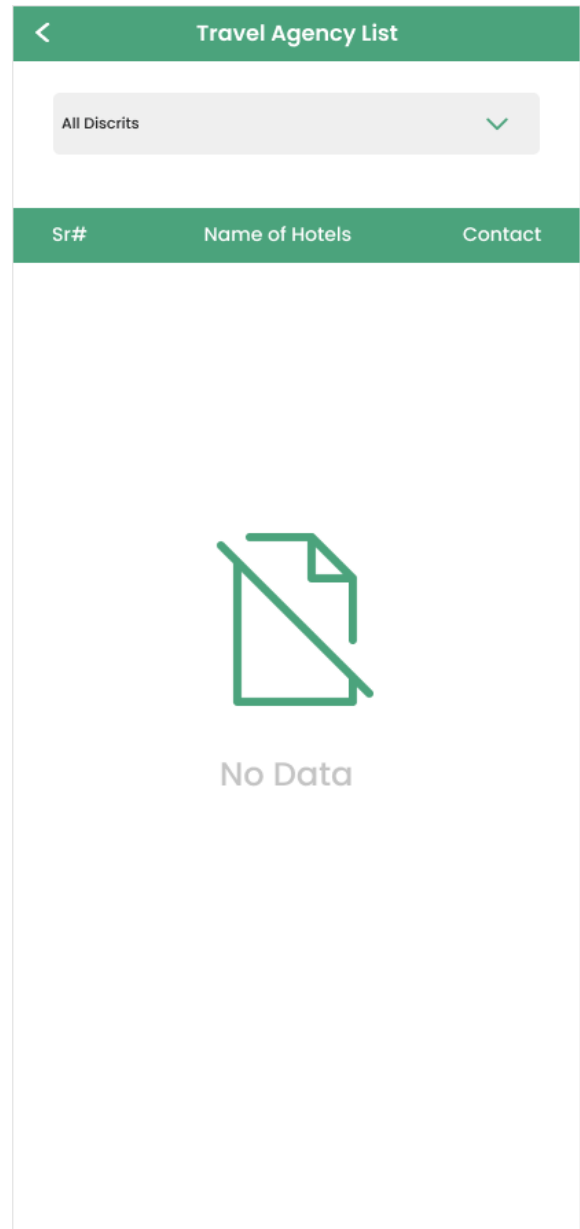

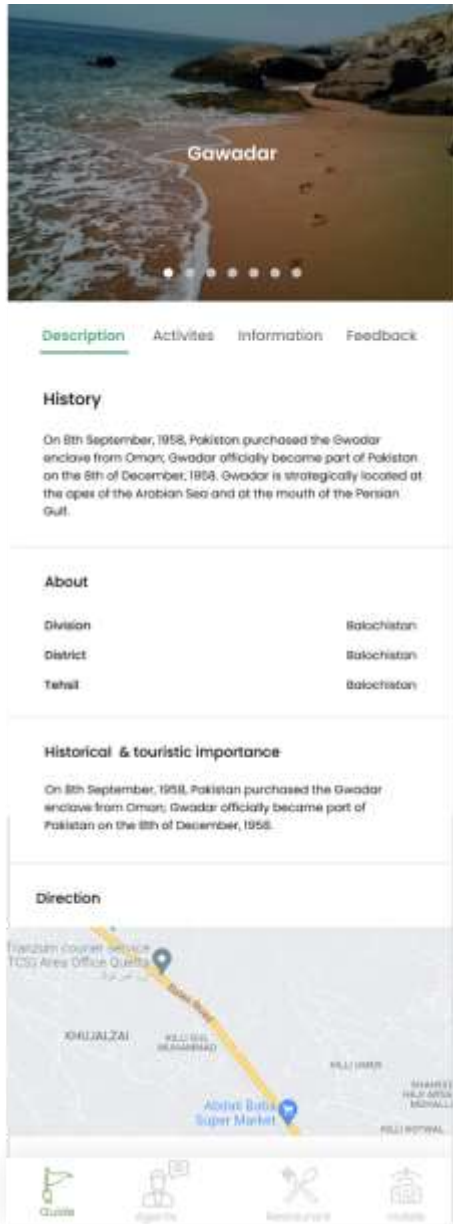

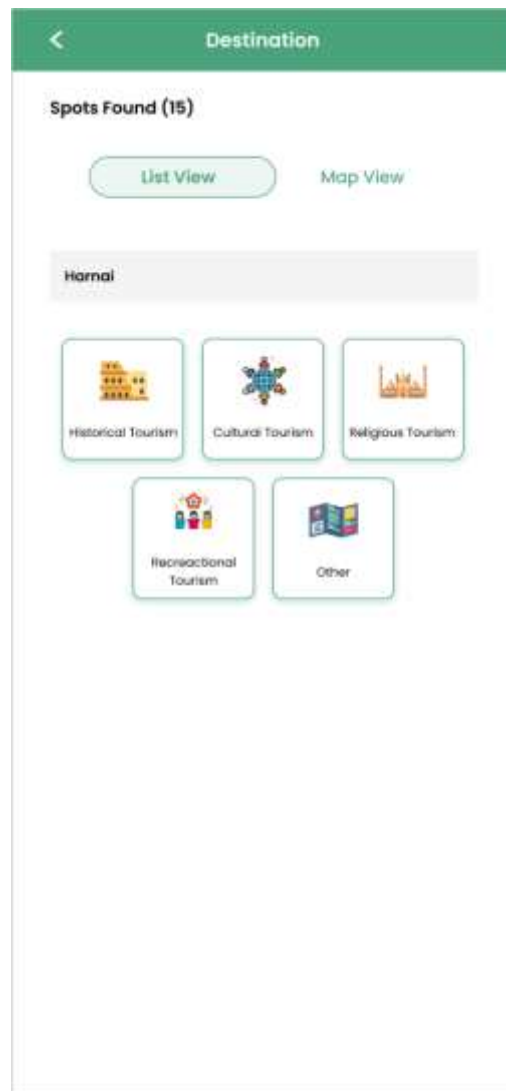

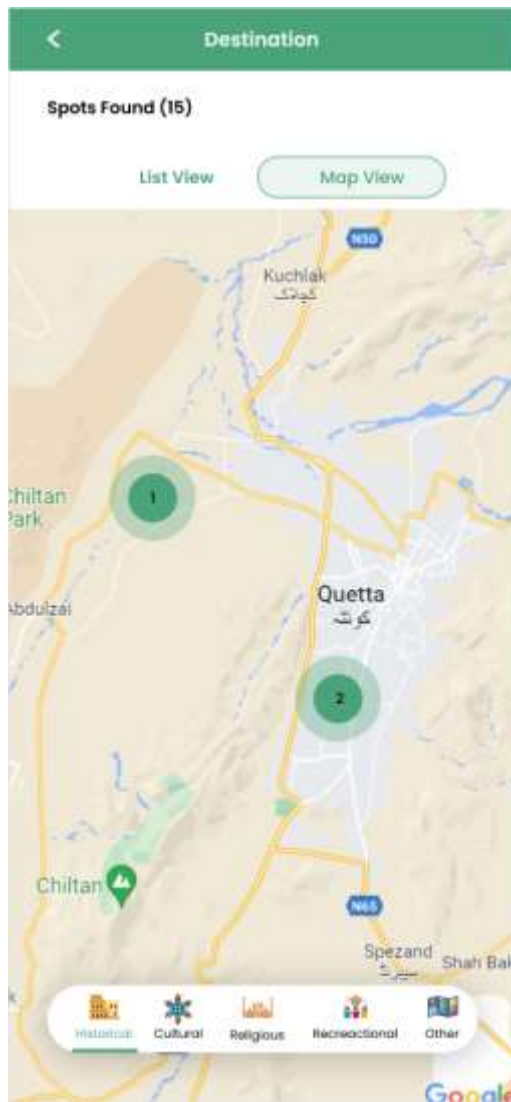

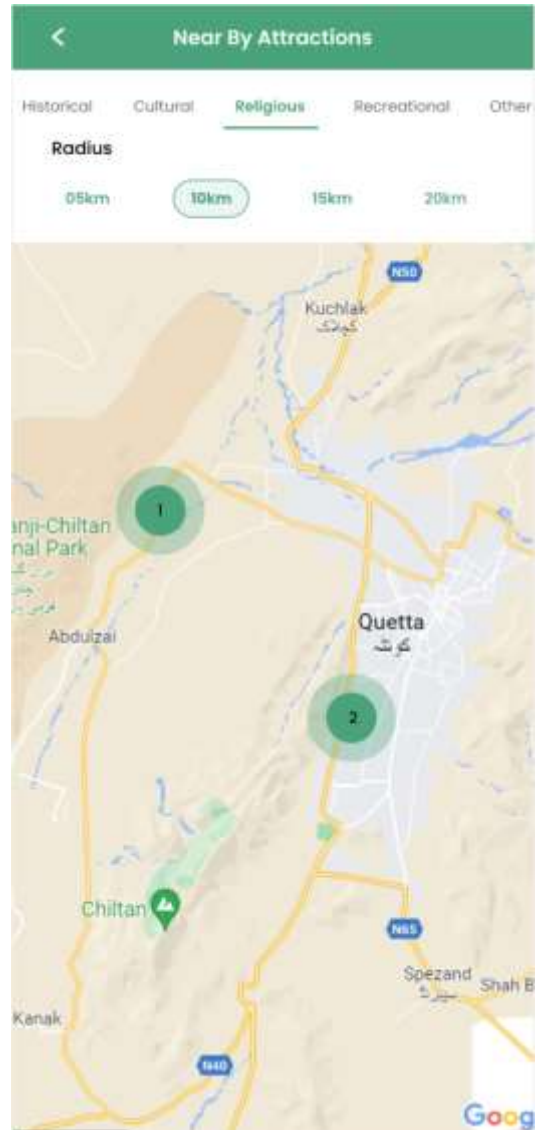

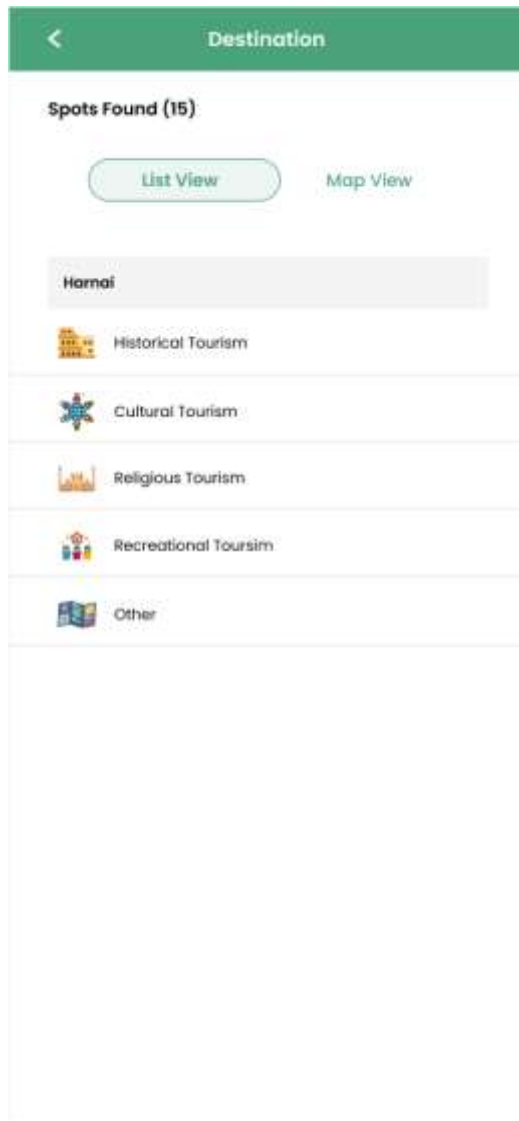

3. Baluchistan Travel App

Travel app - your go-to solution for finding nearby places and activities, booking hotels, and discovering great restaurants in Baluchistan. One of the key features of this travel app is its ability to find nearby places and activities. Simply launch the app, and it will show you a list of nearby attractions, including museums, parks, and other tourist destinations. You can also filter results based on your preferences and interests, such as art, history, or outdoor activities.

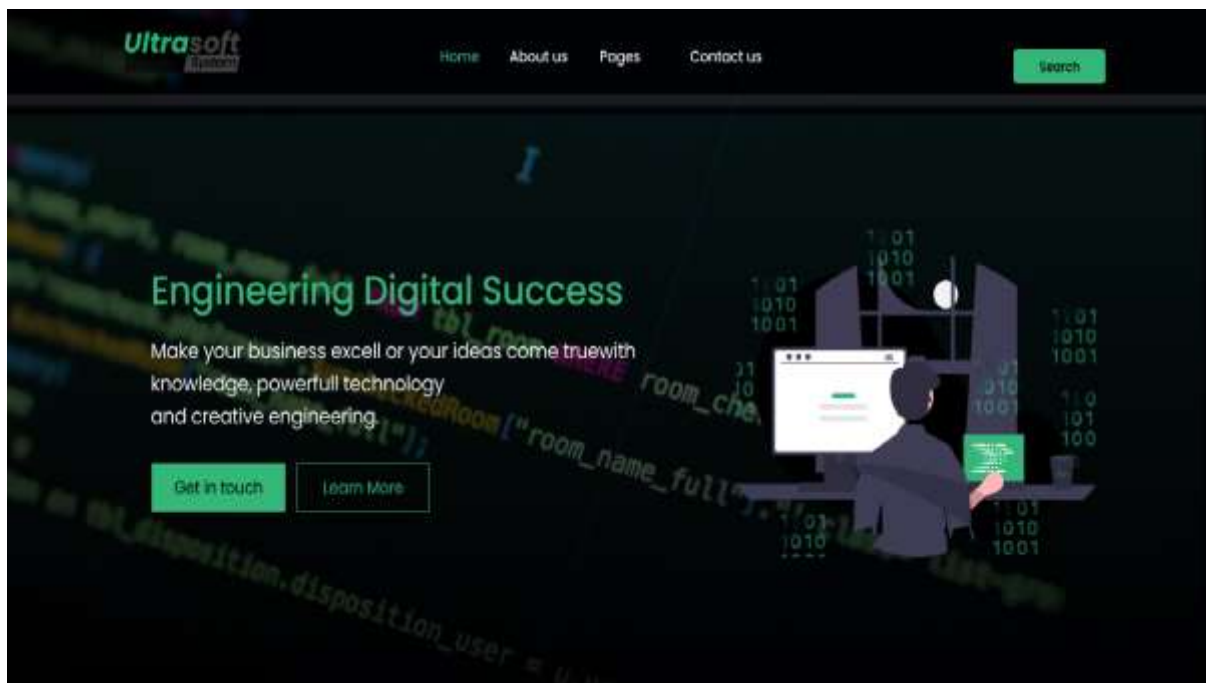

Webpages

1. UltraSoft Website

Ultrasoft Company website, a comprehensive platform that showcases the company's services and capabilities. Ultrasoft is a leading software house that specializes in custom software development, system integration, mobile apps, and web application development, and the website provides a window into the company's expertise and experience.

Our Happy Clients

We see our customers as invited guests to a party, and we are the hosts. It's our job every day to make every important aspect of the customer experience a little bit better. – Jeff Bezos

CUSTOM System Integration

Bring custom IT solution to your business. Be your boss and have flexible, scalable and reliable infrastructures on your premises.

PREBUILT Turnkey Solutions

Prebuilt turnkey solution for those not wanting to customise, but rather be fast and effective

KNOWLEDGE Brain Tech

Technology theory and education, for those who always want to know more, or maybe want our help.

REMOTE/CLOUD Cloud Solutions

For those who don't want to be limited by hardware and space. Use our cloud solutions and pay per usage and scale.

Enjoy the best design and functions combined together

Incepted in 2002, Ultrasoft System has been dominated by technologically advanced innovations which has become industry standards.

ERP

Enterprise resource planning is the integrated management of main business processes, often in real time and mediated by software and technology. Le Sap, Dynamic, Odoo

BPO Solution

Business process outsourcing (BPO) is the practice of contracting a specific work process or processes to an external service provider. The services can include payroll, accounting, telemarketing, data recording, social and more.

Customisation

Customised software is software that is specially developed for some specific organization or other user. As such, it can be contrasted with the use of software packages developed for the mass market, such as commercial off-the-shelf software.

System Integration

Software integration is the process of bringing together various types of software sub-systems so that they create a unified single system. Software integration can be required for a number of reasons, such as: Migrating from a legacy system to a new database system.

Application Development

Model-view-controller is a software design pattern commonly used for developing user interfaces that divides the related program logic into three interconnected elements. This is done to separate internal representations of information from the ways information is presented.

Mobile App

Adriod, iOS & Cross-Platform. Using solid expertise in mobile apps development, our team will help you create practical and seamless experiences on any device and get the best of mobile technology for your business.

This one of the things we do best

BPO

BPO Solutions are an enterprise suite of solutions spanning functional areas such as finance and accounting, HR operations, Supply Chain operations, Public Sector Solutions etc. along with scalable data centers and IT solutions offered by a service provider to various organisations. Organisations also choose a mix and match approach to choose among the range of solutions offered by a single service provider or multiple providers to suite their requirements.

SAP Business One

ERP

SAP Business one is the ideal ERP solution for your SME. Its customized modules cater to complex business requirements, increase control over your small business with software designed to grow with you. SAP Business One streamlines key processes, allowing you to gain greater insight into your business, and make decisions based on real-time information, helping you drive profitable growth.
